

Try & turn the tide

I've whitened up your coffee, dear
I didn't know you liked it black
Can you drive this old mobile
It's still a long way back

Why don't we settle for the night
Why don't we stay behind
Why don't we try and turn the tide
Why don't we say goodbye

It was in a flowershop on thunderstreet
Where we used to meet
With every corner, every single beat
Waiting for relief

Why don't we settle for the night
Why don't we stay behind
Why don't we try and turn the tide
Why don't we say goodbye

Why don't we settle for the night
Why don't we stay behind
Why don't we try and turn the tide
Why don't we say goodbye

Why don't we settle for the night
Why don't we stay behind
Why don't we try and turn the tide
Why don't we say goodbye
